**“One of PLAN’s most treasured networks belonged to Ken, a man in his 40’s who lived in a group home in Vancouver. Ken’s network was a wonderful way for the people who cared about him to stay in touch. Ken didn’t read or write, but he loved to sit with the staff members at his group home and dictate messages that were then posted to his Tyze network.”**

**Tyze networks support people to build communities of caring that help people through all stages of their life.**
